Mission Statement of the Solar Energy Society of Canada Inc. - Northern Alberta Chapter (SESCI-NAC)

The Solar Energy Society of Canada Inc. - Northern Alberta Chapter was formed in 1976 and incorporated under the Societies Act in 1991. The objects of the society are as follows:

- To provide a resource of information to various government sectors involved in energy utilization and related technologies.
- To sponsor educational programs and facilitate exchange of up-to-date information through lectures, seminars and similar means.

- To serve members and the general public by making available sources of information related to renewable energy, conservation and sustainable development.
- To create an awareness among Albertans including members of provincial and municipal governments of the importance of solar energy and its proven potential to reduce dependency on non-renewable sources of energy.

- To enhance the quality of life in Alberta by promoting innovative concepts and improvements in the application of solar energy and conservation techniques which reduce the consumption of pollutive fuels and expand the role of forms of energy with no negative impact on the environment.
